

Call for two candidates

interested in applying for a Marie Skłodowska-Curie Actions Fellowship in tobacco control

The University of Crete, Greece located in Heraklion is looking to recruit two candidates from the broader ENSP network to participate in the Marie Skłodowska-Curie Actions Fellowship EUREST-RISE (European Regulatory Science on Tobacco- Research and Staff Exchange). The main objective of EUREST-RISE is to support the training of researchers in tobacco regulatory science. Within EUREST-RISE, an integrated series of research studies are proposed that will facilitate the training of researchers (ESR and ER) to examine tobacco product systems, their mechanisms and purpose, and interactions between key design characteristics and their assessment in populations of users.

Two positions are available with separate descriptions, **salary 2,100 Euro per month** (plus the possibility of an extra contract), under the direct supervision of Dr Constantine Vardavas.
